The first monograph of Keith Williams, one of the leading landscape architects today.

This book highlights Williams's penchant for sustainability and his efforts to honour the existing landscape, never compromising, to create a spectacularly distinctive garden

Keith Williams has been designing sumptuous outdoor spaces for over 20 years.

In *The Graphic Garden*, Williams highlights his most impressive projects to date which includes the revitalization of several historically landmarked homes and properties.

He often integrates both native and exotic plants, builds opulent swimming pools, and brings in mature trees and stonework, all of which result in stunning gardens that are brimming with lush, tropical foliage.

In showing the transformations and process of these monumental design projects, the book highlights Williams' penchant for sustainability, and his efforts to honor the natural, existing landscape while never compromising the design to create spectacularly distinctive gardens.

As Williams recounts, *"I design gardens – gardens that give back, that are forward-thinking, that can calm, that have emotion, each with its own scale and texture, and that change and provide experiences and human interaction."*

Keith L. Williams, a partner of Nievera Williams Design Incorporated, based in Palm Beach, Florida, joined the firm in 1998. Keith Williams is involved in a wide range of projects – both designing and managing residential and commercial projects in **Palm Beach and Miami Beach, Florida**, as well as in **New York, New Jersey, the Bahamas, Antigua, Shanghai, China, and Dubai**.
